Workshop
Faith

The kingdom of God is within us? I can't see it!

Questions concerning the kingdom of God such as: "Should it be understood as future or present?", "How can it be recognized?", "Can I also experience it?" or: "Do miracles belong to it?" will be discussed in the workshop. The workshop should provide impulses for perceiving the kingdom of God and also provide guidelines for recognizing it more clearly in the future. Come and see!

Congregation
life

Too old for the youth – too young for the seniors. What makes Church attractive for young adults between 20 and 35?

Youth – in our Church this term refers to the age group between 14 and 28. This simple statement already indicates the balancing act required for youth care. On the one hand there are youngsters in the middle of adolescence, on the other hand young adults who to a certain extent already know what life is all about. The result is that there are different expectations in “Youth care” in our Church.

The workshop is primarily directed at young Christians in our Church in the age group between 20 and 35. Together with the participants we shall elaborate what offers are expected in the Church environment and how attractive these can be shaped.

Too old for the youth – too young for the seniors. What makes Church attractive for young adults between 20 and 35?

Youth – in our Church this term refers to the age group between 14 and 28. This simple statement already indicates the balancing act required for youth care. On the one hand there are youngsters in the middle of adolescence, on the other hand young adults who to a certain extent already know what life is all about. The result is that there are different expectations in "Youth care" in our Church.

The workshop is primarily directed at young Christians in our Church in the age group between 20 and 35. Together with the participants we shall elaborate what offers are expected in the Church environment and how attractive these can be shaped.

History

**Sacraments for the departed?
The development of our understanding
of life after death**

The dispensation of sacraments for the departed fundamentally distinguishes us from other Christian denominations. Where does this tradition come from, and how did it develop? What did our forefathers believe more than 150 years ago? In this presentation, Sebastian Müller-Bahr offers a short journey through history.
